...GRASSY KNOLL GAZETTE DIVIDEND· V·86...

Impeachment's too good for them,
but two more lame duck years
are two
too many, for us.
To horse! Impeach now,
before it's too late.

We caught pert of an interview with Tom Miller on All Things Considered one evening in March ....

> .... give the 100 million to the Sandinistas so they can rid Nicaragua of the Contras and settle down to peaceful governance ....

This had to be the Tom Miller who in 1977 titled his book : Assassination Almanac .... it was and he sent us the text ofhis news release, almost all of which follows:

> We've heard all the tired accounts for and against helping the Contras out, Reagan's freedom fighters. If we give them guns and tanks we'll stop Communism before it stops us. If we don't we'll find Communism .... lapping at our shores ....

(cont'd)

Tom Miller cont'd.

Let's look at(Reagan's) goals. He wants to end the senseless violence .... He likes popularly elected governments .... most of all, he wants to minimize Soviet influence ...close to home.

OK, Mr President, here's a plan for you.

You want your hundred million dollar package for the counter-revolutionaries? how about .... $200 million or $300 million? That'd do the job faster .... but with this caveat:

> The check should be made out to the Sandinista Government. Not the Contras.

Here's why. By aiding the government in power, President Reagan and Congress will be demonstrating their support of the electoral process. The government of Daniel Ortega triumphed in an election fairly free of fraud and taint. The Contras have never won an election and likely never could. They simply have no base of support. A few hundred million dollars for the Sandinistas would show our faith in the ballot over the bullet....

By investing in the Ortega government the Administration can actually dilute the Soviet presence .... unable to foment turmoil through the Contras, Ronald Reagan now has the opportunity to bring stability to their homeland. A move so boldwould surely gain the support of administration critics. Conservatives would cheer it as a pre-emptive strike against the Soviets ....

The time has come to let Ortega be Ortega ....

Let Ambassador Harry Burgland march the three kilometers from the embassy in Managua to the Palacio de Gobierno and personally hand the check for $100 million to Daniel Ortega.

> The bloodshed avoided would be our greatest humanitarian gift to the people of Nicaragua.

Tom Miller is today's Jim Monroe.

The Monroe doctrine was designed to assist freedom fighters in this hemisphere who had revolted against their "evil empire" Mother Country in Europe.

The freedom fighters' revolt in Nicaragua in 1979 was against Somoza's Mother Country, the United States, which happened to be in this hemisphere. The Monroe Doctrine had come full circle:

> it met the Evil Empire and it was US

Hon Edward M Kennedy

Washington DC 20510

IV/18/86

Sir:

STAND WITH THE COMMANDER-in-CHIEF

Your statement on TV news after the United States'English attack on Lybia is worth reconsideration.

The present administration's foreign policy is based on ignorance. Anti-Communism, a buzz-word since 1917, has become a subconcious mental disease of epidemic proportions, non-immunizable, seldom curable and usually fatal.

An international force failed to eradicate Communism in 1918-22; Germany failed in 1939-45; an international force failed in 1950-53; the United States failed in 1960-75 and today the United States is picking up where Germany left off.

Grenada, Nicaragua, Angola and Lybia are today's targets in this neighborhood we all call Earth, even as Poland, Austria, Czechoslovakia, Holland, Belgium, Norway, France, and eventaally Russia, were the targets more than four decades ago.

Unilateral action, such as the Axis powers took then, and as the United States and Britain are taking today, is inimical to the spirit of the United Nations at its birth in San Francisco in 1945.

The United States' retrogression into Brown and Black shirt fanaticism, built on radio communication, indicates televisi ion's coming of age. Linkages promulgated on TV have twisted

the evidence of the assassinations of the '60s, the Tonkin Gulf attack, the attempted assassination of Reagan and the shooting down of the Korean airliner into the lies commonly accepted as history.

> Nothing in the present Charter shall impair the inherent right of individual or collective self-defense if an armed attack occurs against a Member of the United Nations .... (Article 51)

Senator, if your legal training can equate "armed attack against a Member" with indiscriminate bommbing of a cafe and Member United States with Member Germany (West Berlin) you're welcome to your stance.

It is the considered opinion here that your predecessors, the President and the Presidential Candidate, would stand squarely in front of this commander-in-chief in tallest possible opposition to current United States actions.

There are those who consider conquering Grenada, aiding the Contras and branding the Sandinista Directorate as heroin-pushers commensurate with "high crimes and misdemeanours".

Moving the House from the unreality of war-mongering to the real world of impeachment is no mean task. The objective of cleaning house, leaving the Vice President saddled with the GOP mantle for '88, is well worth the effort.... to say nothing of the benefits to the poor, the hungry and the dispossessed.

Reconsideration of your proximity to uncivilized barbarianism is respectfully requested.

sincerely

RB Cutler
